Subject: Nordion Training Exercise with Ottawa Police Service: Monday, May 20, 2024

On Monday, May 20, 2024, Ottawa Police Services (OPS) were onsite at BWXT Medical's neighbouring facility, Nordion, located at 447 March Road for a training exercise. This is part of Nordion's efforts to build and maintain a strong relationship with OPS. OPS will have emergency vehicles on site. These types of outreach events are important for both Nordion and Ottawa emergency services in order to improve response capabilities and ensure an integrated response in the unlikely event that there is an emergency at the Nordion site.
